BIRTHDATE: 19/01/2000
23 YEARS

GOALS

increase my knowledge so that every day I can be more expert in technology and programming languages since I still have a lot to learn

LANGUAGES

Spanish: native language
Portugues: mother tongue
English: BI

EXPERIENCE

FRONT-END DEVELOPER / PYTHON DEVELOPER – BOLD-IDEAS

10/2022 – 03-2023

Developed different web pages using HTML, CSS, Tailwind, and PHP in a team environment, and created several Python scripts to automate various tasks within the company.

FULL-STACK DEVELOPER

12/2021 – 02/2022

Full-stack web development using HTML, CSS, Sass, JavaScript, PHP, and SQL to create a website for a gym that offered various services such as monthly memberships, classes, products, and more. Integrated Instagram API to showcase the latest updates and a Maps API to locate the gym. Implemented various other functions as well.

FULL-STACK PYTHON DEVELOPER

02/2021 – 07/2021

A full-stack project with Python using the Django framework, also using HTML, CSS, SQLite, and JavaScript, but mainly focused on Python. A web application was developed for the company's server to manage clients, transfer all old paper records to a digital format stored in a complex form, new records were created with the order creation date and the deadline date, connected to SQLite tables of clients and a table of all materials available in the company with the quantity to be used and the quantity in stock. Completed and invoiced processes are saved without the ability to be edited, only transformed into PDF and passed on to accounting.

VOLUNTEERING OR LEADERSHIP EXPERIENCE

With the passage of time being a team leader for various jobs and university projects, it is always important to correct, help and lean on the team's mistakes to continue moving forward, not to blame anyone but to solve the problem and as a team, if you don't understand where is the bug
